 | Anti-phishing
 | Navegación segura
 | Acceso condicional
 | Anti-bot
 | Filtrado de URL
 | DNS protegido
 | Seguridad de la red
 | Wi-Fi (MITM)

03 Evaluación de riesgos del dispositivo:
 | Vulnerabilidades del sistema operativo
 | Explotaciones a nivel de dispositivo
 | Configuraciones erróneas
 | Rooting / Jailbreak avanzado
 | Evita fugas de Información

Harmony Mobile

Correo Seguro

Tendrás herramientas de análisis del correo electrónico

The slide features the Harmony Email & Office logo at the top left. A central graphic shows a laptop displaying an email interface with red boxes highlighting suspicious elements: 'REMITENTE SOSPECHOSO', 'ADJUNTO MALICIOSO', 'ENLACE MALICIOSO', and 'CUERPO TEXTO SOSPECHOSO'. To the right, a network diagram is overlaid with a cloud containing logos for Office 365, Exchange, OneDrive, and SharePoint. Security threats are listed around the network: PHISHING, BEC & SUPLANTACIÓN DE IDENTIDAD, MALWARE, ROBO DE CREDENCIALES, AMENAZAS INTERNAS, and PERDIDA DE DATOS. Below the laptop, a table compares implementation and audit details.

Implementación	Auditoria Gratuita

Cumplimiento

Podrás asegurar el cumplimiento de la normativa aplicable, en concreto con el RGPD.

GDPR Compliance Project and Data Governance

The Check Point Group is committed to the proper protection of personal data in line with all applicable laws and it seeks to inform its customers and other related affiliates fully about the way in which personal data is used during the course of its business activities. Not only is that a requirement of the applicable data protection laws that Check Point must comply with, it is fundamental to the trust placed in Check Point by its customers and staff as well as in the context of its standing within the data and IT security market.

In order to prepare for the implementation of the GDPR, Check Point consulted with its external legal counsel in the UK (Simmons & Simmons LLP) in a series of face-to-face meetings designed to (i) understand the ways in which the GDPR applies to the Check Point Group and its related data processing activities globally and (ii) to implement the necessary compliance activities under the GDPR and further refine its existing data and IT systems and controls in line with such compliance activities. Descriptions of some of the broad measures adopted as a result of Check Point's GDPR compliance project are included within this document.
